Gateways earn Helium for device transmissions and performing geolocation services

The default per transmission and geolocation fee charged to devices for services. You can override the default fees by creating a new Earnings group.

Add new earnings group to customize fees for different gateways

add new group

Default Fees [change](#)

Transmission: 0.005 Helium

Geolocation: 0.01 Helium

which earnings group is the default one applied to new gateways?

- the one at the top. be clear that this is the default group and any gateway will have this unless explicitly stated

what happens when you delete a group and the gateways have no pricing associated?

- default to default group that cannot be deleted

what happens when you create a new group and select a few gateways?

- their pricing changes and takes on the new amounts
- need to make this clear

can a gateway have multiple pricing groups?

- no. just one. either the default one or the custom one.

can default fees be deleted?

- no. since it's the default fee structure for all gateways, it cannot be deleted.

fees assigned to gateways here will also be reflected on the gateway details page
